

APR 1961

Honorable David E. Bell
Director
Bureau of the Budget
Executive Office Building
Washington 25, D.C.

Dear Mr. Bell:

The Chairman of the Senate Foreign Relations Committee has requested the comments of this Agency on S. 822, a bill to create the Freedom Commission and the Freedom Academy to research and develop an integrated, operational science to win the nonmilitary part of the global struggle between freedom and communism and to train Government personnel, private citizens, and foreign students in this science.

The attached proposed report calls attention to Mr. Dulles' feeling that in this country we need more education on the history and policies of International Communism particularly with respect to knowledge of the nature of the Communist threat to our way of life. It also points out several factors which we feel should be considered with regard to the establishment of a Freedom Academy.

Advice is requested as to whether there is any objection to the submission of the attached report.

Sincerely,

SIGNED
